

# Internship / Apprenticeship Opportunities

Our institution is committed to providing **career-oriented practical exposure** to students through structured **Internship and Apprenticeship programs** in collaboration with government bodies, industries, MSMEs, and emerging technology platforms.

Even as a young institution, we ensure that students gain **real-time industry experience**, enhance technical skills, and improve employability.

## Objectives

- Bridge the gap between **academics and industry**
- Provide **hands-on technical experience**
- Enhance **employability and entrepreneurship skills**
- Facilitate **paid apprenticeships for graduates**

## Internship Opportunities

### 1. Government Supported Internships

- AICTE Internship Portal
- APSCHE Internship Programs
- MSME Technology Centres
- Virtual internships in emerging technologies (AI, Data Science, Cyber Security, Cloud)

### 2. Industry Internships

- Local software and IT companies
- Startups and MSMEs
- Web development & app development firms
- Data analytics and digital marketing companies

### **3. In-House Internships**

Students are engaged in:

- College website & ERP development
- Research & innovation projects
- Product development
- Technical event management systems

## **Apprenticeship Opportunities**

For final year and passed-out students:

Through **National Apprenticeship Training Scheme (NATS)**:

- One-year paid apprenticeship
- Opportunities in:
  - Government organizations
  - Public sector units
  - Private industries
- Monthly stipend as per norms
- Nationally recognized certification

## **Key Features**

- ✓Dedicated Training & Placement Cell
- ✓Internship guidance from faculty mentors
- ✓MoUs with industries & MSMEs
- ✓Skill development before internship
- ✓Continuous performance monitoring

## **Expected Outcomes**

- 100% internship opportunities for eligible students
- Industry exposure from early semesters
- Improved placement potential
- Career readiness
