

Campus Recruitment Status (Since Inception – 2024)

Campus Recruitment & Industry Engagement (2024–Present)

- The college commenced academic operations in **2024**.
- As the **first batch is currently in progress**, full-fledged campus placements will begin after the completion of the program.
- The institution has proactively established:
 - Industry collaborations
 - Training & Placement Cell
 - Skill development and CRT programs

Current Progress

- Industry interactions conducted with reputed organizations
- Internship opportunities facilitated for students
- MoUs signed with industry partners for training and placement support

Placement statistics such as placement rate and average package will be reported after the first batch completes the program.

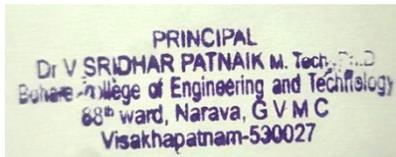

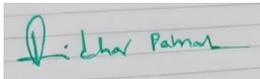

Proposed Campus Recruitment Framework

Parameter	Status
Recruiters	Industry tie-ups initiated
Placement Drives	Planned from final year onwards
Placement Rate	To be reported after first graduating batch
Average Package	To be reported after placements

Student Career Readiness Initiatives

Activity	Details
CRT Programs	Aptitude, soft skills, technical training
Industry Interaction	Guest lectures, workshops
Internships	Mandatory internships planned
Career Guidance	Resume building, mock interviews

These initiatives ensure strong placement outcomes for upcoming batches.
