

## BARRIER-FREE AND INCLUSIVE ACCESS

Behara College of Engineering and Technology provides barrier-free environment where staff/students with disabilities can move about safely and freely and use the facilities within the built environment. The environment at BCET supports the independent functioning of individuals so that they can participate without assistance in everyday activities within the campus.

**Ramps** which are inclined plane, are built in addition to staircases in BCET. The ramps are carefully designed as per Indian Standard specifications to make the Institute to be disabled friendly.

**Divyangjan friendly washrooms :** At BCET care has been taken to provide the washrooms especially that are Divyangjan friendly. This kind of facility is provided at both gents and ladies washrooms. The washrooms have rails to give support for holding.
